ABOUT

I am a goal-driven computer science graduate seeking a position in an innovative environment. I am an eager learner, constantly looking for opportunities to apply and enhance my competencies. As a tech-optimist with a strong interest in new systems and technologies, I am excited to leverage my expertise to develop innovative solutions and contribute to the advancement of technology.

EXPERIENCE

WEB DEVELOPER (Intern) | 2022

- Achieved significant accomplishments during my internship as a web developer
- Collaborated effectively with senior developers and other interns in accomplishing projects
- Honed problem solving skills
- Acquired additional knowledge in robotics engineering and development
- Developed technical & professional skills

EDUCATION

University of Saint La Salle | BS Computer Science

SKILLS

- Web Development & Web Design: HTML, CSS, Javascript, PHP, & Codeigniter
- Programming Languages: C++, Java, & Python
- Data Science: Tableau, Power BI, Python, Data Visualization & Analysis
- Art & Graphic Design: Adobe Photoshop & Illustrator
- Troubleshooting
- Team Player
- Attention to detail
- Communication

PROJECTS

College thesis: Online forum with basic chatbot

- Managed project's documentation, including research and reports
- Assisted with statistical tools
- Designed and Developed Web site (Front-end & Back-end)
- Algorithm and Dataset design (for a basic chatbot)
- Worked collaboratively with team mates

Tools used:

- Visual Studio Code - for web development & design
- XAMPP - for local-host database server
- Pycharm - for chatbot development
- Algorithms - Pattern Matching algorithm with Rule-based Model
- Programming Languages - PHP, HTML, CSS, Javascript, python, & JSON (for dataset)
- Github - for collaboration
